It has a certain usefulness in investigative work, but is of little value as a practical test. 7. The ordinary black scale does not appear to be a retarder of atmospheric rust. Little accurate information appears available on this matter. 9. Heterogeneity of structure of metal is generally supposed to be antagonistic to durability, but this investigation shows that if it is a factor it is one of secondary significance and overshadowed by other factors. These results are presented as tentative only, since conclusive evidence on a problem so important and complicated as the corrosion of iron and steel can be obtained only by repeated tests upon a large number of samples.
