

## School-Based Emergency Preparedness: A National Analysis and Recommended Protocol (Paperback)

By U S Department of Health Human Services, Agency for Healthcare Research And Quality

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. More than seven years after the disaster of September 11, 2001, the U.S. remains relatively unprepared for a large-scale disaster involving children. Despite important advances in our country's ability to respond effectively to chemical, biological, or nuclear terrorism, there continues to be inadequate development of pediatric protocols that could be implemented by the local, State, and Federal agencies charged with preparation and consequence management. Emergency preparedness plans have evolved over recent years to include not only intentional (terrorist) disasters but also unintentional public health emergencies such as natural disasters (e.g., earthquakes or floods; chemical incidents such as hazardous materials releases; and emerging infections such as Severe Acute Respiratory Syndrome (SARS), West Nile virus, and pandemic influenza). Under principles of dual functionality, emergency response plans must now take the approach of creating response plans that integrate intentional and unintentional disasters. Children differ from adults in many ways that are of great importance in building public health emergency response plans. Their greater susceptibilities result from differences in breathing rate, skin permeability, innate immunity, fluid reserve, communication skills, and self-preservation...
