John Hunt Publishing. Paperback. Book Condition: new. BRAND NEW, Contemporary Creed: Reasonable Pathways Through the Problems of Christian Beliefs and Ethics (Revised edition), John Morris, Unlike Richard Dawkins, the Contemporary Creed (revised edition) sees no conflict between evolution and God, faith and modern science. But what sort of God creates a violent universe with a Big Bang almost 14 billion years ago and appears to do little or nothing to prevent built-in suffering and natural disasters like earthquakes, famines, disabled children and cancers? The Christian God leaves a lot unexplained. Some writers give superficial answers whereas Morris, who helps care for his own handicapped grandson, gets to the root of difficulties and succeeds in finding credible pathways through sixty problems of Christian beliefs and ethics. He writes for believers and unbelievers: for Christians like himself who admit their doubts, and for atheists and agnostics interested in big questions. His unusual format of 90% prose and 10% original poetry is entertaining, and the style straightforward everyday language, offering conclusions that are often open-ended, undogmatic. His systematic theology becomes a brief A-Z that may be read in any order for individual Bible study, or by house groups that want a provocative structure for lively discussion.
