This is an autobiographical work describing a young boy growing up in the most humble surroundings where the entire family worked to maintain the most basic lifestyle. He went on to work his way during and after high school in the Texas oil fields in order to enroll in college. With a quest to fly, fly he did with the U.S. Air Force, in B-36 and B-52 bombers during the Cold War, eventually becoming a senior commander, rising to the grade of Major General and Chief of Staff, Strategic Air Command. Recruited out of the Air Force to accept an appointment as Associate Director, Los Alamos National Laboratory and later becoming a business executive and on to managing the recovery of the degraded local and long-distance communications systems in Post-Cold War Russia onward, creating eleven published works, including this in depth autobiographical personal experience journey, which includes substantial factual historical events. Enjoy!.
